Professional Statement

Motivated and eager-to-learn electrical engineering student with hands-on experience gained through internships and academic projects. I possess a strong foundation in electrical principles, along with a proven ability to adapt and collaborate in team environments. My passion for problem-solving and commitment to personal and professional growth drive my desire to contribute meaningfully to innovative engineering solutions. Excited to embrace new challenges and steadily develop my skills in the field of electrical engineering.

Experience

INTERNSHIP AND ACADEMIC ON THE JOB TRAINING AUG 2023 - MAR 2024

- Oversaw all aspects of electrical component and system design
- Managed the entire component and system design process
- Provided crucial updates for stakeholders
- Implemented a new project management strategy to improve productivity by 40%
- Supervised a team of 10 other electrical engineers.

Education

- 2020-2022: Obtained a school certificate at Moomba secondary school
- 2023 Lusaka Vocational Training Centre Certificate in Domestic Wiring in Electrical Engineering

Key Skills & Abilities

LANGUAGES SPOKEN

- English

SKILLS

- Circuit design
- Computer hardware and software
- Project management
- Python
- Validation testing
